The University Library is well equipped to assist distance learners. Many library materials (e.g., databases, journals, books) are available online and open to all students taking courses. The library employs a full-time distance learning librarian who can provide assistance related to specific research issues. For more information, contact the UT Dallas Distance Librarian: Loreen Henry - e-mail Loreen@utdallas.edu or phone 972-883-2627.
