Library

The University Library is well equipped to assist distance learners. Many library materials (e.g., databases, journals, books) are available online and open to all students taking courses. The library employs a full-time distance learning librarian who can provide assistance related to specific research issues. For more information, contact the UT Dallas Distance Librarian: Loreen Henry - e-mail Loreen@utdallas.edu or phone 972-883-2627.
